

SILK WHITE

Silk White is a natural homogeneous white stone, with fine grain and a light creamy tone. Its matte finish gives the stone an appearance that resembles concrete.

This natural look inherent in Natural Stone is accentuated by the exclusive Stratum Nanotreatment that increases enormously the physical properties of the original Stone.

Silk White can be supplied in various textures, formats and patterns, thus offering a wide range of design possibilities. This product is ideal for Floor tiles, Wall tiles, Countertops and many other applications.

TEXTURES

SQUARE SIZES

| | | |
|----------|----------|-------------------|
| 36x36 in | 90x90cm | ULTRA SIZE |
| 24x24 in | 61x61 cm | |
| 18x18 in | 45x45 cm | |
| 16x16 in | 40x40 cm | |

RECTANGULAR SIZES

| | | |
|----------|-----------|-------------------|
| 48x24in | 120x60 cm | ULTRA SIZE |
| 36x24 in | 90x60 cm | |
| 36x18 in | 90x45 cm | |
| 32x16 in | 80x40 cm | |
| 24x16 in | 60x40 cm | |
| 24x12 in | 60x30 cm | |
| 32x8 in | 80x20 cm | |
| 16x8 in | 40x20 cm | |
| 24x6 in | 60x15cm | |

TEST RESULTS

| STANDARD | PROPERTY | VALUES |
|------------|------------------------------------|---|
| ASTM C97 | Bulk Specific Gravity | 2.257 kg/m ³ 140,9 lb/ft ³ |
| ASTM C97 | Absorption | 0,72% |
| ASTM C99 | Modulus Of Rupture Dry Condition | 7,5 MPa 1.090 PSI |
| ASTM C99 | Modulus Of Rupture Wet Condition | 7,9 MPa 1.140 PSI |
| ASTM C170 | Compressive Strength Dry Condition | 59 MPa 8.500 PSI |
| ASTM C170 | Compressive Strength Wet Condition | 56 MPa 8.100 PSI |
| ASTM C880 | Flexural Strength Dry Condition | 10,2 MPa 1.480 PSI |
| ASTM C880 | Flexural Strength Wet Condition | 8,8 MPa 1.280 PSI |
| ASTM C1353 | Abrasion Resistance | 5,5 |

THICKNESS

| | |
|-----------------|---|
| 0.6 in / 15 mm |  |
| 0.47 in / 12 mm |  |
